- LED lighting
- 5 T/ sqm** floor load capacity
- Up to **12 m** storage clear height
- 12 x 24 m** column grid

Property headline

The park is located in a close proximity to the southern Prague Ring Road, which connects the key strategic motorways from the D1 to the D11 motorways. Thanks to its convenient location on these transport routes, it offers direct access to all parts of the Czech Republic as well as within the Prague itself. The park is part of an industrial zone. It is served by the railway and bus public transport network and a bike path runs nearby the park.
